Easy to use

- Pannarello to froth milk as you like
- Ergonomic in day-by-day operations

Easy to clean and maintain

- Automatic coffee circuit cleaning
- Removable brewing group

PHILIPS

Saeco

sense and simplicity

Highlights

Bean-to-cup espresso

Your favorite beans are always freshly ground so their entire aroma is captured in every cup. This way Philips-Saeco bean-to-cup espresso machines deliver excellent and fresh coffee enjoyment day after day.

Adjustable ceramic grinders

Whole beans are freshly ground for every cup by ceramic grinders, always preserving their full aroma and never overheating the coffee.

Auto coffee circuit cleaning

This feature makes sure that each and every coffee is as fresh as possible: Before going into

and when returning from stand-by mode, the machine automatically cleans its coffee circuit.

Pannarello

With the pannarello you can froth your milk exactly according to your preferences. Just dip the pannarello in the milk, while slowly stirring the milk with a rotary movement. Froth the milk as long as you want for more or less foamy mikfroth.

Removable brewing group

The brewing group is at the heart of every fully automatic coffee machine and it should always be kept clean. A task that doesn't get any more convenient than with a Saeco: remove, rinse and re-insert – finished.

Small and energy efficient

Small size and frontal access to all functionalities make sure that the Xsmall fits in every kitchen. And thanks to its efficiency (Class A according to Swiss regulation) and auto shutdown it's very kind to the environment.

Ergonomic day-by-day

Philips-Saeco is a synonym for convenience: refilling beans or water, emptying the coffee-dump box or the drip tray, all compartments are directly accessible.
